

Basic Commands for Alice

Alice-AI Virtual Assistant understands verbal command and complete task assigned by the user. It uses various python libraries like text to speech, sub-process, speech recognition, webbrowser etc. and various other packages.

BELOW ARE THE SOME COMMANDS YOU CAN GIVE TO ALICE TO EXECUTE:

- You can ask about the creator, just say: **“WHO MADE YOU?”** OR **“WHO CREATED YOU?”**.
- You can give command to open some websites such as:
 - **“OPEN YOUTUBE”**
 - **“OPEN GOOGLE”**
 - **“OPEN GMAIL”**
- If you want to play some videos or songs directly and auto-play in Youtube, you can give command like: **“PLAY (WHAT YOU WANT TO PLAY)”** - E.g.: Play Faded
- You can also ask about the time, day or date, try saying :
 - **“WHICH DAY IT IS?”**
 - **“TELL ME THE TIME”**
- You can also interact with the operating system by giving commands:
 - **“LOG OFF”**
 - **“RESTART”**
 - **“SHUTDOWN”**
- You can stop the program Alice , just say:
 - **“GOOD BYE” OR “OK BYE” OR “STOP” OR “BYE”**
- You can also search from Wikipedia, just say:
 - **“‘YOUR QUESTION’ FROM WIKIPEDIA”** E.g.- Alan Walker from Wikipedia
- You can also ask some computational and Geographical questions by saying:
 - **“DO SOME MATHS”** and then your question after the response.
 - **“TRY SOME COMPUTATIONAL PROBLEM”** and then your question after the response.
 - **“TRY SOME CALCULATION”** and then your question after the response.
- You can ask your query specifically from Google by saying:
 - **“SEARCH”** in your statement E.g.: Search Music
